Services

Our PKi team of trained and experienced technicians are commercial refrigeration experts in all areas of refrigeration service, maintenance, care and repair. We are a factory authorized service provider which means our technicians have received the proper training to accurately diagnose and correct any issue. Our preventative maintenance programs will help keep your equipment operating properly and we will promptly dispatch a team member when problems arise.

Installation

Proper installation of refrigeration equipment is a key element to ensure proper and efficient operation. Our customers are small convenience stores to the largest national retailers, and everything in between. We have the expertise to get installations of any size, complexity and scope completed on time and on budget.

Retail & C-Store Refrigeration Equipment

Creating an attractive display for retail & C-Store is key to enticing customers. Equally important is making sure your display has the best refrigeration systems so products are always stored at the proper temperatures. If your client wants a "cold" drink then your equipment has to deliver on that promise. **PKI** has a wide variety of options in display glass doors and can customize the size of your storage area to fit your needs. **PKI** can design an efficient cold storage room and display at a price you can afford so you can enhance the overall appearance and performance of your business.
